

# Learn, network, and increase efficiency at **your NASA Center.**

---

JOIN YOUR COLLEAGUES AT SPACECOM'S  
NASA CENTER THEATER

George R. Brown Convention Center • Houston, TX

**NOVEMBER 27-28, 2018**

**SPACECOM**  
SPACE COMMERCE CONFERENCE AND EXPOSITION

## WHY SPACECOM?

At SpaceCom, attendees explore new applications of space-enabled technology and how they can build new commercial markets. NASA and international government agencies discuss and see firsthand how they can take advantage of these new technologies and services to advance their deep space initiatives.

Join hundreds of your NASA colleagues from all the NASA Centers and key leaders involved in commercial space, aerospace, and international space agencies.

## CLEE DESIGNATED EVENT

**By attending SpaceCom, you'll learn, network, and increase efficiency at your Center.**

- Learn about the latest innovations for the commercialization of low Earth orbit (LEO) from corporate leaders
- Connect with field center counterparts in your program or directorate
- Explore the advances in space technology, products, and services
- Find companies and startups looking to adopt NASA technology
- Network with companies such as Northrop Grumman, Engility, and Rocket Lab in private meeting spaces

## THE NASA CENTER THEATER

Don't miss your NASA Center's presentation on the SpaceCom show floor. Presentations cover each Center's market-ready technology, regional economic development efforts, and more! This popular program is sure to attract commercial and aerospace leaders, allowing you to extend your Center's reach to new businesses and industries. Visit [SpaceComExpo.com/NCT](http://SpaceComExpo.com/NCT) for more information.

## THE SPACECOM ENTREPRENEUR SUMMIT

In partnership  
with

Google Cloud

The SpaceCom Entrepreneur Summit brings together early-stage startups and investors for a two-part workshop and a \$100,000 Entrepreneur Challenge in partnership with Google Cloud for Startups. The Summit will attract entrepreneurs, startups, and commercial investors who are looking to learn about and create commercial applications using the latest market-ready NASA technology. Learn more at [SpaceComExpo.com/SES](http://SpaceComExpo.com/SES)
